Short Form Specification

Exposed architectural concrete surface treatment shall be obtained with Scott System elastomeric form liner in #275 Adirondack Drystack as manufactured by Scott System, 109 General Fellows Rd, Greenwich, NY 12834 (518) 383-0500, www.scottsystem.com

Joints will be tightly butted and sealed to prevent leakage.

Release agent shall be approved and applied as per Scott System formliner installation instructions. The liner may be factory bonded at the contractor's option to plywood or field-laminated following Scott System's printed directions.

NO SUBSTITUTIONS WILL BE ALLOWED WITHOUT PRIOR WRITTEN APPROVAL FROM THE PROJECT ARCHITECT OR ENGINEER

*Note: Please refer to our full specification and installation instructions for complete details about our Flex-Liner™ product.
